

In English we will learn to:

- Use finger spaces, capital letters and full stops when writing sentences.
- Use tie adverbials to sequence events in a recount
- Join words and clauses using 'and'
- Use the past tense
- Use verbs to make our writing more interesting
- This half term we will use **Beegu** by Alexis Deacon as a prompt for our writing.
We will read lots of other books for pleasure in class story time.

In RE we will learn:

- Why is Jesus special to Christians?

In Computing we will learn to:

- Use the 'Our Story 2' app to combine images, video, audio and text to create an e-book about a topic.

What will we be learning?

Year 1 Herons
Spring 1

In History we will learn:

- who George Stephenson was
- how to use sources of information
- how life was different for people living a long time ago
- about George Stephenson's achievements
- about Stephenson's Rocket
- about changes in railways and rail travel
- about the impact Stephenson had on the local area and nationally

In Design and Technology we will learn to:

- Design, make and evaluate a train
- research and evaluate trains and use ideas in our own designs
- plan a design and resources we will need

In Maths we will learn to:

- Count to 20
- Understand, compare and recognise numbers to 20
- Use a number line
- Add and subtract within 20
- Begin to recognise, compare and understand numbers to 50

In Music we will learn to:

- Explore how music makes the world a better place
- identify how tempo and dynamics are used effectively in music
- Listen, sing, play, improvise, compose and perform.

In PSHE we will learn:

- to recognise privacy
- to stay safe and seek permission
- how to communicate safely online and using different devices
- how rules and age restrictions keep us safe online
